What is BSPT?

- ✓ The Blocksport Token (BSPT) is a fungible token initially released on the Ethereum blockchain and later bridged to Binance Smart Chain. BSPT is the utility token to mint and purchase sports collectible digital cards that represent unique content stored on blockchain.
- ✓ The BSPT token is an important part of the Blocksport NFT platform and acts as a “currency.” BSPT is an ERC-20 token and will remain on the Ethereum blockchain. BSPT tokens will continue to be the main entry and exit point for those who want to buy NFT.

What are NFT?

- ✓ NFTs ("non-fungible tokens") are one-of-a-kind tokens that signify a specific good or asset, such as digital trading cards.
- ✓ They can be sold on NFT marketplaces, minted, auctioned, or used as assets in play-to-earn games that are yet to be released.

- ✓ Selling your minted NFTs is relatively easy and can be done on NFT our marketplace.

How does minting work?
